## THE SOUTHEAST ASIA REGIONAL CENTRE FOR COUNTER-TERRORISM (SEARCCT)

### SEARCCT

The Southeast Asia Regional Centre for Counter-Terrorism (SEARCCT) was officially launched on 1 July 2003 by the then Minister of Foreign Affairs, Malaysia, the Honourable Dato' Seri Syed Hamid Albar.

SEARCCT serves as a leading centre in the Southeast Asian region to train and enhance the capacity of enforcement, security and government officials in collaboration with established think-tank institutions and international organisations. The Centre also promotes Malaysia's perspective on how best to deal with terrorism and the promotion of a comprehensive approach to counter-terrorism.

SEARCCT has also utilised various training courses, conferences, and forums to discuss and disseminate the urgency to have a multi-pronged and multi-faceted approach in countering terrorism. In implementing its mission, SEARCCT has identified seven flagships. These flagships are Legal and Investigation, CBRNE and Crisis Management, Aviation, Maritime and Transport Security, Cyber Terrorism, Prevention and Rehabilitation, Terrorism Financing and lastly Youth and Terrorism. From August 2003 to November 2010, a total of 82 training courses were conducted with 2,650 local and foreign officials participating. Programmes also included practical and simulation exercises designed to add value and provide an interesting learning experience for the participants.

For 2011, SEARCCT has taken the initiative to further improve its programme syllabus, enhance existing cooperation with the relevant institutions, and establish new links with international and regional organizations, such as the UN and ASEAN. The programmes developed by SEARCCT will focus on existing and future threats perceived and cater to the needs of its clientele.

Though the Prospectus reflects collaboration with only several countries, additional names will be included in SEARCCT's website once their partnership is confirmed.

### **Vision**

"To be a regional centre of excellence in training and research on counter-terrorism".

### **Mission**

The Centre aims to achieve its vision based on the following:

- To develop a capable and vigilant counter-terrorism centre in Southeast Asia through quality and comprehensive capacity building programmes.
- To promote public awareness and disseminate information on the threat of terrorism and measures taken to counter it.
- To become a centre for reference on terrorism and counter-terrorism in cooperation with local and international agencies through research efforts.
- To foster mutual cooperation, research, understanding and networking amongst regional and international organisations in the field of counter-terrorism.

## Objectives

- To develop and organise a comprehensive capacity building and public awareness programmes on counter-terrorism.
- To produce quality research materials on relevant terrorism and counter-terrorism matters for publication.
- To promote information and knowledge-sharing through its Web Portal and Database.
- To deliver an effective administration for the success of its activities.

## Focus of Activities

- Efforts in capacity building through programmes organised for its participants to upgrade their knowledge and skills in counter-terrorism measures as well as establishing network for further cooperation.
- Creating public awareness by addressing NGOs, the private sector and the public on counter-terrorism issues.
- To improve the Centre's Web Portal and Database by providing up-to-date information on current issues for publication and information gathering purposes on terrorism, terrorist organisations, counter-terrorism measures etc.
