INTRODUCTION

THE SOUTHEAST ASIA REGIONAL CENTRE FOR COUNTER-TERRORISM (SEARCCT)

The Southeast Asia Regional Centre for Counter-Terrorism (SEARCCT) was officially launched on 1 July 2003 by the then Minister of Foreign Affairs, Malaysia, the Honourable Dato' Seri Syed Hamid Albar.

SEARCCT serves as a leading centre in the Southeast Asian region to train and enhance the capacity of enforcement, security and government officials on counter-terrorism issues in collaboration with established think-tank institutions and international organisations. The Centre also serves to promote Malaysia's perspective on how best to deal with terrorism in particular its comprehensive approach to counter-terrorism.

SEARCCT has also utilised various training courses, seminars, workshops, conferences, and forums to discuss and disseminate the urgency to have a multi-pronged and multi-faceted approach in countering terrorism. In implementing its mission, SEARCCT has identified seven flagships to work on. These flagships are:-

- Legal and Investigation,
- CBRNE and Crisis Management,
- Aviation, Maritime and Transport Security,
- Cyber Terrorism,
- Prevention and Rehabilitation,
- Terrorism Financing and
- Youth and Terrorism.

From August 2003 to December 2011, a total of 96 capacity building training programmes under the various flagships were conducted with 3,038 local and foreign officials participating. SEARCCT programmes also included field visits as well as practical and simulation exercises designed to add value and provide an interesting learning experience for the participants.

For 2012, SEARCCT will continue to further improve its programme syllabus, enhance existing cooperation with the relevant institutions and develop new links with other regional and international organisations. The programmes developed by SEARCCT will continue to focus on existing and future threats perceived and cater to the needs of its clientele.

Although the prospectus only reflects several collaborators, changes and conditions of co-operation with other partners will be included once details of joint-training programmes are confirmed. The list of programmes and collaborations are therefore not exhaustive.

Vision

“To be a regional centre of excellence in training and research on counter-terrorism”

Mission

The Centre aims to achieve its vision based on the following:

- To develop a capable and vigilant counter-terrorism centre in Southeast Asia through quality and comprehensive capacity building programmes.
- To promote public awareness and disseminate information on the threat of terrorism and measures taken to counter it.
- To become a centre for reference on terrorism and counter-terrorism in cooperation with local and international agencies through research efforts.
- To foster mutual cooperation, research, understanding and networking amongst regional and international organisations in the field of counter-terrorism.

Objectives

- To develop and organise a comprehensive capacity building and public awareness programmes on counter-terrorism.
- To produce quality research materials on relevant terrorism and counter-terrorism matters for publication.
- To promote information and knowledge-sharing through its Web Portal and Database.
- To deliver an effective administration for the success of its activities.

Focus of Activities

- Efforts in capacity building through programmes organised for its participants to upgrade their knowledge and skills in counter-terrorism measures as well as establishing network for further cooperation.
- Creating public awareness by addressing NGOs, the private sector and the public on counterterrorism issues.
- To improve the Centre's Web Portal and Database by providing up-to-date information on current issues for publication and information gathering purposes on terrorism, terrorist organisations, counter-terrorism measures etc.
