THE SOUTHEAST ASIA REGIONAL CENTRE FOR COUNTER-TERRORISM (SEARCCT)

About SEARCCT

The Southeast Asia Regional Centre for Counter Terrorism (SEARCCT) was officially launched on 1 July 2003 by the then Minister of Foreign Affairs, Malaysia, the Honourable Dato' Seri Syed Hamid Albar.

SEARCCT serves as a leading Centre in the Southeast Asia region to train and enhance the capacity of enforcement and security officials on counter-terrorism issues in collaboration with established think-tank institutions and international organisations. The Centre also serves to promote Malaysia's perspective on how best to deal with terrorism and the promotion of a comprehensive approach to counter-terrorism.

SEARCCT has also utilised various training courses, conferences, and forums to discuss and disseminate the urgency to have a multi-pronged and multi-faceted approach in countering terrorism. In implementing its mission, SEARCCT has identified seven flagships. The flagships are:

- Investigation and Legal Aspect,
- CBRNE and Crisis Management,
- Aviation, Maritime and Transport Security,
- Cyber Terrorism,
- Prevention and Rehabilitation,
- Terrorism Financing, and
- Youth and Terrorism.

From August 2003 to December 2012, a total of 112 training courses were conducted with 3474 local and foreign officials participating. SEARCCT programmes also included field visits as well as practical and simulation exercises designed to add value and provide an interesting learning experience for the participants. A number of

SEARCCT training programmes are offered to regional participants especially ASEAN countries, as well as international participants from developing countries under the Malaysian Technical Cooperation Programme (MTCP).

For 2013, SEARCCT has taken the initiative to further strengthen its programme syllabus, enhance existing cooperation with relevant institutions both local and foreign, and establish further links with international and regional organisations such as the UN and ASEAN. Programmes developed by SEARCCT will focus on existing and future threats perceived catering to the needs of its clientele.

Since its inception, SEARCCT has had numerous collaborations with foreign and local agencies. In 2012, SEARCCT had collaborations with the British High Commission, New Zealand High Commission, Canadian High Commission, French Embassy and international organisations such as UNODC and CTED. SEARCCT welcomes proposals for productive collaborations with institutions and organisations locally and abroad to enrich our programmes. SEARCCT also organises public lectures, forums, roundtable discussions, seminars and workshop which are opened for participation to interested organisations and individuals. They normally include government officials, academicians and university students, representatives from think tanks, non-governmental organisations and training institutes and members of the diplomatic corps based in Kuala Lumpur.

Although the prospectus only reflects several collaborators, changes and conditions of co-operation with other partners will be included once details of joint-training programmes are confirmed. The list of programmes and collaborations are therefore not exhaustive.

Vision

"To be a regional centre of excellence in training and research on counter-terrorism".

Mission Statement

The Centre aims to achieve its vision based on the following:

- To develop a capable and vigilant counter-terrorism centre in Southeast Asia through quality and comprehensive capacity building and programmes.
- To promote public awareness and disseminate information on the threat of terrorism and measures taken to counter it.
- To become a centre of reference on terrorism and counter-terrorism in cooperation with local and international agencies through research efforts.
- To foster mutual cooperation, collaboration, research, understanding and networking amongst regional and international organisations in the field of counter-terrorism.

Objectives

- To develop and organise comprehensive capacity building and public awareness programmes on counter-terrorism.
- To produce quality research materials on relevant terrorism and counter-terrorism matters for publication.
- To promote information and knowledge-sharing through its Web Portal and Database.
- To deliver an effective administration for the success of its activities.

Focus Of Activities

- Efforts in capacity building through programmes organised for participants to enhance their knowledge and skills in counter-terrorism measures as well as establishing network for further cooperation.
- Creating Public Awareness by addressing NGOs, the private sector and the public on counter-terrorism issues.
- To improve the Centre's Web Portal and Database by providing the up-to-date information on the current issues for publication and information gathering purposes on the subject of terrorism, terrorist organisations, counter-terrorism measures etc.

Facilities

SEARCCT has the following facilities:

- A library equipped with books, journals and news articles related to counter-terrorism.
- Meeting Rooms
- Web Portal
