ABOUT SEARCCT

The Southeast Asia Regional Centre for Counter-Terrorism (SEARCCT) was officially launched on 1 July 2003 by the then Minister of Foreign Affairs, Malaysia, the Honourable Dato' Seri Syed Hamid Albar.

SEARCCT serves as a leading Centre in the Southeast Asia region to train and enhance the capacity of law enforcement and government officials on counter-terrorism issues in collaboration with established think-tank institutions and international organisations. The Centre also serves to promote Malaysia's perspective on how best to deal with terrorism and to provide a comprehensive approach to counter-terrorism.

SEARCCT utilises various training courses, conferences, and forums to discuss and disseminate the urgency to have a multi-pronged and multi-faceted approach in countering terrorism. In implementing its mission, SEARCCT has identified seven flagships. The flagships are:

- Investigation and Legal Aspect,
- CBRNE and Crisis Management,
- Aviation, Maritime and Transport Security,
- Cyber Terrorism,
- Prevention and Rehabilitation,
- Terrorism Financing, and
- Youth and Terrorism.

From August 2003 to December 2016, a total of 194 training courses, were conducted with the participation of 7,002 local and foreign officials. SEARCCT programmes include field visits as well as practical and simulation exercises that are designed to add value and provide an interesting learning experience for the participants.

In 2016, SEARCCT has taken the initiative to further strengthen its programme syllabus, enhance existing cooperations with relevant local and foreign institutions, and establish further links with international and regional organisations such as the United Nations and ASEAN. Programmes developed by SEARCCT will focus on existing and perceived future threats, while catering to the needs of its clientele.

Since its inception, SEARCCT has had numerous collaborations with foreign and local agencies. In 2016, SEARCCT collaborated with the Embassy of the United States of America, New Zealand High Commission, Canadian High Commission and Japan-Asean Integrated Fund (JAIF). As such, SEARCCT welcomes proposals for productive collaborations with local and foreign institutions and organisations to enrich its programmes. SEARCCT also organises public lectures, forums, roundtable discussion, seminars and workshops for interested organisations and individuals. They include, among others, government officials, academicians and university students, representatives from think tanks, non-governmental organisations, training institutes as well as members of the diplomatic corps based in Kuala Lumpur.

Although this prospectus only reflects several collaborators, changes and conditions of co-operation with other partners will be included once the details of joint-training programmes have been confirmed. The list of programmes and collaborators are therefore not exhaustive.

VISION

“To be a regional centre of excellence in training and research on counter-terrorism”.

MISSION STATEMENT

The Centre aims to achieve its vision based on the following:

- To develop a capable and vigilant counter-terrorism centre in Southeast Asia through quality and comprehensive capacity building and programmes;
- To promote public awareness and disseminate information on the threat of terrorism and measures taken to counter it;
- To become a centre of reference on terrorism and counter-terrorism in cooperation with local and international agencies through research efforts; and
- To foster mutual cooperation, collaboration, research, understanding and networking amongst regional and international organisations in the field of counter-terrorism.

OBJECTIVES

- To develop and organise comprehensive capacity building and public awareness programmes on counter-terrorism.
- To produce quality research materials on relevant terrorism and counter-terrorism matters for publication.
- To promote information and knowledge-sharing through its Web Portal and Database.
- To deliver an effective administration for the success of its activities.

FOCUS OF ACTIVITIES

- Efforts in capacity building, through programmes organised for participants to enhance their knowledge and skills in counter-terrorism measures and establish networks for further cooperations.
- Creating public awareness by addressing NGOs, the private sector and the public on counter-terrorism issues.
- To improve the Centre's Web Portal and Database by providing up-to-date information on current issues for publication and information gathering purposes on the subject of terrorism, terrorist organisations, counter-terrorism measures, etc.
